	5,050

The Company received no payment in connection with the issuances of such shares. No underwriters were involved with the issuance of such shares and no commissions were paid in connection with such issuances. There was no advertisement or general solicitation made in connection with the issuance of such shares. Except as described above, Monarch did not issue or sell any shares of its Capital Stock or Class B Capital Stock during the quarter ending March 31, 2017.

5) Financial Statements

The Company's interim financial statements are attached at the end of this quarterly filing.

6) Describe the Issuer's Business, Products and Services.

A. Description of issuer's business operations:

The Monarch Cement Company (Monarch) manufactures and sells portland cement. The manufacture of portland cement by Monarch involves the quarrying of clay and limestone and the crushing, drying and blending of these raw materials into the proper chemical ratio. The raw materials are then heated in kilns to 2800° Fahrenheit at which time chemical reactions occur forming a new compound called clinker. After the addition of a small amount of gypsum, the clinker is ground into a very fine powder that is known as portland cement. The term "portland cement" is not a brand name but is a term that distinguishes cement manufactured by this chemical process from natural cement, which is no longer widely used. Portland cement is the basic material used in the production of ready-mixed concrete that is used in highway, bridge and building construction where strength and durability are primary requirements.

Subsidiaries of Monarch (which together with Monarch are referred to herein as the "Company") are engaged in the ready-mixed concrete, concrete products and sundry building materials business. Ready-mixed concrete is manufactured by combining aggregates with portland cement, water and chemical admixtures in batch plants. It is then loaded into mixer trucks and mixed in transit to the construction site where it is delivered to the contractor.

Concrete products primarily include pre-formed components produced by the Company that are ready for use in the construction of commercial buildings, institutional facilities and parking garages.

B. Date and State of Incorporation:

Monarch was organized as a corporation under the laws of the State of Kansas on July 24, 1913.

C. <u>Issuer's primary and secondary SIC Codes:</u>

3241 – Cement, Hydraulic 3273 – Ready-Mixed Concrete

D. Issuer's fiscal year end date:

December 31

E. Principal products or services, and their markets:

The marketing area for Monarch's products, which is limited by the relatively high cost of transporting cement, consists primarily of the State of Kansas, the State of Iowa, southeast Nebraska, western Missouri, northwest Arkansas and northern Oklahoma. Included within this area are the metropolitan markets of Des Moines, Iowa; Kansas City, Missouri; Springfield, Missouri; Wichita, Kansas; Omaha, Nebraska; Lincoln, Nebraska; Fayetteville, Arkansas and Tulsa, Oklahoma. Sales of cement are made primarily to contractors, ready-mixed concrete plants, concrete products plants, building materials dealers and governmental agencies. Monarch cement is delivered either in bulk or in paper bags and is sold under the "MONARCH" brand name. The cement is distributed both by truck and rail, either common or private carrier.

Subsidiaries of Monarch sell ready-mixed concrete, concrete products and sundry building materials in Monarch's primary market.

7) Describe the Issuer's Facilities

The Company's corporate office and cement plant, including equipment and raw materials, are located at Humboldt, Kansas, approximately 110 miles southwest of Kansas City, Missouri. The Company owns approximately 5,000 acres of land on which the Humboldt plant, offices and all essential raw materials for the cement operations are located. Construction completed in 2006 increased our cement plant's capacity allowing us to produce in excess of one million tons of cement per year. Producing at that level, raw material reserves are estimated to be sufficient to maintain operations at this plant for more than 50 years, although not all reserves are currently accessible under existing governmental permits and approvals. The Company believes that this plant and equipment are suitable and adequate for its current level of operations and provides for increases in market demand.

The Company also owns approximately 250 acres of land in Des Moines, Iowa on which it operates a cement terminal. The Company transfers cement produced in Humboldt, Kansas to this terminal for distribution to Iowa customers. The Company also owns a rock quarry located near Earlham, Iowa, approximately 30 miles west of Des Moines, Iowa. Approximately 353 acres of this 400 acre tract have been quarried and the Company has contracted with a third party to quarry and sell the remaining rock. This quarry operation does not have a material effect on the Company's overall operations.

The Company owns various companies which sell ready-mixed concrete, concrete products and sundry building materials within the Humboldt cement plant's primary market. Various equipment and facility improvements in this line of business ensure these plants are suitable and adequate for their current level of operations and provide for increases in market demand. No single subsidiary's physical property is materially significant to the Company.

There are no material encumbrances on our properties.

(1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Monarch Cement Company (Monarch) is principally engaged in the manufacture and sale of portland cement. The marketing area for Monarch's products consists primarily of the State of Kansas, the State of Iowa, southeast Nebraska, western Missouri, northwest Arkansas and northern Oklahoma. Sales are made primarily to contractors, ready-mixed concrete plants, concrete products plants, building materials dealers and governmental agencies. Subsidiaries of Monarch (which together with Monarch are referred to herein as the "Company") sell ready-mixed concrete, concrete products and sundry building materials within Monarch's marketing area.

For a summary of accounting policies, the reader should refer to Note 1 of the consolidated financial statements included in our Company's most recent annual report.

Certain amounts in the prior periods presented have been reclassified to conform to the current period financial statement presentation. These reclassifications have no effect on previously reported net income.

(2) PROPERTY, PLANT AND EQUIPMENT

As of March 31, 2017, the amount of accounts payable related to property, plant and equipment was approximately \$419,000 compared to December 31, 2016 which was approximately \$165,000.

(3) INVENTORIES

We did not incur a temporary last-in, first-out (LIFO) liquidation gain during the three months ended March 31, 2017 or March 31, 2016.

(4) LINES OF BUSINESS

Corporate assets for 2017 and 2016 include cash and cash equivalents, deferred income taxes, investments and other assets. Corporate assets also include refundable federal and state income taxes for 2017. Following is a summary of the Company's business segment results for the periods indicated:

(5) FAIR VALUE

Realized gains (losses) on equity investments are computed using the specific identification method. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 - quoted prices in active markets for identical assets or liabilities.

Level 2 - observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The aggregate amount of equity securities carried at cost for which the Company has not elected the fair value option, was \$0.9 million at March 31, 2017. The remaining \$31.5 million in equity security investments are stated at fair value. As of December 31, 2016, the aggregate amount of equity securities carried at cost was \$0.9 million and the remaining \$32.2 million in equity security investments were stated at fair value. The following table summarizes the bases used to measure certain assets at fair value on a recurring basis in the balance sheet at March 31, 2017 and December 31, 2016:

		Fair Value Measurements Using:

Total assets measured at fair value	\$ 32,232,932	\$ 32,232,932	\$	-	\$	-		

Cash and cash equivalents have carrying values that approximate fair value using Level 1 prices. Receivables, accounts payable and short and long-term debt have carrying values that approximate fair values using Level 2 inputs. The Company's valuation techniques used to measure the fair value of its marketable equity securities were derived from quoted prices in active markets for identical assets (Level 1 inputs). Investments that are recorded at cost or the equity method are evaluated quarterly for events that may adversely impact their carrying value.

There were no transfers between levels and there were no significant changes in the valuation techniques during the period ended March 31, 2017. The Company has no liabilities at either date requiring remeasurement to fair value on a recurring basis in the balance sheet. The Company has no additional assets or liabilities at either date requiring remeasurement to fair value on a non-recurring basis in the balance sheet.

The following table shows the gross unrealized losses and fair value of the Company's investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time that individual trade lots of securities have been in a continuous unrealized loss position at March 31, 2017 and December 31, 2016:

(6) INVESTMENTS

Cost Method Investments

The Company owns stock in a privately-owned company in the ethanol production industry. The investment, for which fair value approximates carrying value, was evaluated at March 31, 2017 and December 31, 2016 for impairment. The evaluations of the investment for each period's impairment analysis were based on the specific identification of shares held and quoted prices in markets that are not active (Level 2) and no impairments were identified. As a result of the evaluations, the Company does not consider the cost method investment to be impaired at March 31, 2017 or December 31, 2016.

Fair Value Investments

Impairment Analysis

March 31, 2017--The Company's investments in available-for-sale securities carried at fair value are evaluated quarterly for impairment by comparing the specifically identified cost of each investment to market price. As a result of these evaluations, the Company did not identify any other-than-temporary impairments in investments which would have resulted in a recognized loss in earnings of equity investments. The Company did identify some specific investments in available-for-sale equity securities that were not other-than-temporarily impaired resulting in the recognition of unrealized losses (see table above in Note 5 "Fair Value"). These unrealized losses were immaterial.

December 31, 2016--The Company's investments in available-for-sale securities carried at fair value were evaluated every quarter for impairment by comparing the specifically identified cost of each investment to market price. As a result of these evaluations, the Company identified a \$1.1 million other-than-temporary impairment for the third quarter in its oil & gas refining and marketing industry investments resulting in a recognized loss on equity investments. The fair value of those investments then became the new cost basis. The Company did identify some specific investments in available-for-sale equity securities that were not other-than-temporarily impaired resulting in the recognition of unrealized losses (see table above in Note 5 "Fair Value"). These unrealized losses were immaterial.

Equity Method Investments

The Company owns common stock of GFI, a privately-owned company in the brick industry. The Company has determined that it has the ability to exercise significant influence, but not control, over the operating and financial policies of GFI. Consequently, the equity method of accounting is used for the investment.

Pertinent information about the Company's investment in GFI is as follows:

	Ma	rch 31, 2017	December 31, 20			
Carrying value	\$	6,903,898	\$	6,787,591		
Ownership percentage		32.04%		32.04%		
Cash dividends received	\$	-	\$	32,206		
Undistributed earnings		2,065,119		1,948,811		
Difference between carrying amount and						
the underlying equity in net assets*		(39,663)		(39,663)		
	Ma	rch 31, 2017	Ma	rch 31, 2016		
Equity in earnings	\$	116,308	\$	99,985		

^{*} The difference between carrying amount and the underlying equity in net assets is in a memo allocated to goodwill.

During the three months ended March 31, 2017 and 2016, the Company purchased \$0.4 million and \$0.3 million, respectively, of brick from GFI in arm's length transactions in the normal course of business for resale to third parties. The Company eliminated intra-entity profits or losses for its proportionate share of GFI's common stock for inventory still remaining with the Company until such profits or losses were realized in transactions with third parties. Amounts due to GFI for Company purchases were not significant at March 31, 2017 and 2016.

The Company's equity method investment is reviewed for impairment on a periodic basis or if an event occurs or circumstances change that indicate the carrying amount may be impaired. This assessment is based on a review of the investment's performance and a review of indicators of impairment to determine if there is evidence of a loss in value of the investment. Factors the Company considers include:

- Absence of the Company's ability to recover the carrying amount;
- Inability of the equity affiliate to sustain an earnings capacity which would justify the carrying amount of the investment; and
- Significant litigation, bankruptcy or other events that could impact recoverability.

For an equity investment with impairment indicators, the Company measures fair value on the basis of discounted cash flows or other appropriate valuation methods (Level 3). If it is probable that the Company will not recover the carrying amount of its investment, the impairment is considered other-than-temporary and recorded in earnings, and the equity investment balance is reduced to its fair value accordingly. After review, the Company does not consider its equity method investment, for which fair value approximates carrying value, to be impaired at March 31, 2017 or December 31, 2016.

(7) PENSION AND OTHER POSTRETIREMENT BENEFITS

The following table presents the components of net periodic pension and postretirement benefit costs allocated to Cost of Sales and Selling, General and Administrative expenses for the three months ended March 31, 2017 and 2016:

	Pension Benefits				Other Benefits			
	2017		2016		2017		2016

Net periodic (benefit) expense	\$	167,288	\$	556,025	\$	(355,143)	\$	(347,564)

As previously disclosed in our financial statements for the year ended December 31, 2016, there are no minimum expected contributions to the plans that Monarch must make. As of March 31, 2017, we have not made any contributions to the fund.

The other benefits consist of postretirement benefits that are self-insured by Monarch and are paid out of Monarch's general assets. As previously disclosed in our financial statements for the year ended December 31, 2016, Monarch expects expenditures of approximately \$1,040,000 for this plan in 2017. As of March 31, 2017, we have contributed approximately \$232,000 and anticipate contributing an additional \$808,000 to this plan in 2017 for a total of \$1,040,000.

(8) RECLASSIFICATION OUT OF ACCUMULATED OTHER COMPREHENSIVE INCOME

The following table presents the reclassifications out of accumulated other comprehensive income and the affected line item in the statements where net income is presented for the three months ended March 31, 2017 and 2016:

Reclassification for	2017			2016

(9) OTHER NONOPERATING INCOME OR EXPENSE

Other, net contains miscellaneous nonoperating income (expense) items other than interest income, interest expense, gains on equity investments and dividend income.

(10) EARNINGS PER SHARE

Basic earnings per share of capital stock has been calculated based on the weighted average shares outstanding during each of the reporting periods. The weighted average number of shares outstanding was 3,860,789 and 3,860,789 for the first quarter of 2017 and 2016, respectively. The Company has no capital stock equivalents and therefore, does not report diluted earnings per share.

(11) INCOME TAXES

The Company, or one of its subsidiaries, files income tax returns in the U.S. Federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. Federal or state income tax examinations by tax authorities for years before 2014. The Company believes it is not subject to any significant tax risk. The Company does not have any accrued interest or penalties associated with any unrecognized tax benefits, nor were any significant interest expenses recognized during the three months ended March 31, 2017 or March 31, 2016.
